UX Researcher with a background in content strategy, experimentation, and data-driven, user-centered design, with experience leveraging AI tools to accelerate research workflows.

PROFESSIONAL EXPERIENCE

Help Content Developer, Full-time | Amazon Apr 2025 - Present

- Designed and executed A/B experiments on help articles and in-workflow content to reduce user friction, preventing 20,000+ annualized advertiser support contacts
- Led content strategy for a major reporting platform migration, restructuring 130+ help articles using content audits and performance data, achieving a 0.62% contact rate vs. 4% for legacy content
- Conducted customer contact analysis for Amazon Marketing Cloud, identifying 19 content gaps and reducing the highest-volume ticket type by 23.2%

Content Project Manager, Full-time | NerdWallet Oct 2019 - Aug 2024

- Increased traffic for auto reviews by 50% by redesigning reviews template used on 165+ reviews based on UX research survey and preference test results from 48 participants and 6 SEO tests

Lead UX Designer, Contract | AIEmbodied May 2023 - June 2023

- Designed an MVP prototype through 5+ iterations in Figma, enabling a $1.5M estimated 2-year return for an AI automation startup
- Developed usability testing materials, including scripts and data collection tools, to evaluate AI workflow concepts

IT Communications Specialist and Writer, Full-Time | The Walt Disney Company Jan 2017- Oct 2019

- Led user-focused communication for 15+ annual strategic initiatives for ESPN, ABC, and Disney Resorts

EDUCATION

University of Washington June 2026
M.S.Human Centered Design & Engineering

Moravian College
B.S. Journalism

PROJECTS

UX Researcher, Capstone Project | UW Office of Research (ORIS) Jan 2025 - June 2026

- Led mixed-methods research (26 surveys, 16 interviews, 30+ competitive audits) uncovering why researchers and outside stakeholders struggled to find relevant UW research or the right people to work with
- Synthesized findings into 6 insights that reframed scope to a unified research-discovery platform, presented to UW ORIS stakeholders
- Tested 3 prototype concepts with 16 users; prioritized features into a phased 3-year roadmap
- Built prototype with Claude Code using real UW data; leveraged AI tools to accelerate research synthesis

UX Researcher, Volunteer | Appa Health June 2023 - Nov 2023

- Led 3-month mixed-methods study (interviews, thematic analysis) for a teen mentorship app, delivering insights that drove product-market fit and a 15% increase in user engagement

SKILLS & RESEARCH METHODS

- Usability Testing, Surveys, User Interviews, Card Sorting, A/B Testing, Thematic Analysis, Contextual Inquiry, Ethnography, Competitive Analysis | Figma, Miro, Jira, NotebookLM, Claude Code
